Vecinos

Comunidades de propietarios, digitalizadas

Product plan + MVP + phased roadmap

Name proposals

Evaluated for domain availability, memorability, and positioning.

Name	Domain	Positioning	Verdict
Vecinos	vecinos.app	Direct, everyone knows the word. App-first.	**Recommended**
MiComunidad	micomunidad.es	Possessive = personal. SEO-friendly.	**Strong alt**
Escalera	escalera.app	Colloquial. 'Los de mi escalera'. Very Spanish, fun.	**Strong alt**
JuntaYa	juntaya.es	Action-oriented. 'Convoca con JuntaYa'.	Catchy
Convive	convive.app	'Live together'. Warm, community-oriented.	Elegant
Bloque	bloque.app	Urban, direct, short. Works in LatAm too.	Strong
Portal	portal.community	Double meaning (building portal + web portal).	Creative
Finca	finca.app	Industry term. Administradores recognise it.	Too pro
Propietarios	propietarios.app	Legal term. Professional SEO.	Too formal
Cuota	cuota.app	Financial focus. Everyone knows the word.	Too narrow

Top 3: Vecinos (broadest), MiComunidad (SEO), Escalera (fun, Spanish).

Phased roadmap

Phase 0: Validation (weeks 1-2)

Before writing code. Confirm demand and feasibility.

Task	Deliverable
Talk to 10 presidentes (friends, neighbours, forums)	Interview notes, 5+ 'I would use this'
Download Fincas.app + Don Comunidad, use as presidente	Competitive analysis document
Check WhatsApp Business API pricing for Spain	Cost model (est. EUR 0.03/msg)
Consult lawyer: digital convocatorias + voting (LPH)	Legal opinion (1 page)
Secure domain (vecinos.app or micomunidad.es)	Domain registered
Landing page with waitlist (Vercel + form)	URL live, collecting emails

Phase 1: MVP (weeks 3-8)

Core loop: register, invite vecinos, announcements, incidencias, basic junta.

Sprint 1-2 (weeks 3-4): Foundation

Feature	Details
Auth (phone OTP + Google)	Same flow as mensajeras. Presidente registers with phone.
Comunidad registration	Address, number of units, coeficientes (optional).
Vecino invitations	Generate WhatsApp/SMS link. Vecino signs up, joins comunidad.
Role model	Presidente (admin), Vecino (member). Simple RBAC.
PWA shell	Installable from browser. Bottom nav: Home, Announcements, Incidencias, Docs.

Sprint 3-4 (weeks 5-6): Communication

Feature	Details
Announcements	Post text + photo to all vecinos. WhatsApp notification via Business API.
Incidencia reporting	Report issue with photo + description. Status tracking.
Document storage	Upload PDFs (actas, presupuestos, seguros). Organised by type + year.
Notification preferences	Each vecino chooses: WhatsApp, SMS, email, or in-app only.

Sprint 5-6 (weeks 7-8): Junta basics

Feature	Details
Convocatoria builder	Create junta with date, time, location, agenda. LPH 15-day minimum enforced.
Send convocatoria	WhatsApp + email to all vecinos. Delivery tracking.
RSVP + attendance	Vecinos confirm attendance or delegate proxy.
Quorum calculator	Auto-calculate quorum by coeficiente de participacion.
Acta template	Generate PDF acta from attendance + agenda. Presidente fills in decisions.

MVP milestone: 10 comunidades. Presidente manages without WhatsApp groups.

Phase 2: Finances + voting (weeks 9-14)

The money layer and the voting layer. This is where it becomes indispensable.

Feature	Sprint	Details
Cuota tracking	7-8	Dashboard: each vecino's payment status by month.
Auto reminders	7-8	WhatsApp/SMS to morosos. Configurable frequency.
Derrama calculator	7-8	Input total, calculate share by coeficiente.
In-junta voting	9-10	Presidente puts motion to vote, vecinos vote in-app.
Vote types	9-10	Simple majority, qualified (3/5 for structural works, LPH art. 17).
Proxy delegation	9-10	Assign vote to another vecino digitally before junta.
Auto acta	11-12	Full acta: attendance, coeficientes, votes, agreements. PDF.
Expense logging	11-12	Log expenses with receipt photo, category, monthly summary.

Phase 2 milestone: 50 comunidades. 5 paying customers. Cuota + voting = why they stay.

Phase 3: Growth + monetisation (weeks 15-24)

Feature	Sprint	Details
Stripe billing	13-14	Subscription billing for paid tiers.
Maintenance calendar	13-14	Track ITE, fire extinguishers, lift, seguro renewal.
Booking system	15-16	Reserve piscina, padel, sala de reuniones.
Proveedor directory	15-16	Request quotes from electricians, plumbers, cleaners.
Admin dashboard	17-18	Multi-comunidad view for professional administradores.
SEO content	17-18	Blog: modelo acta, calculadora derrama, guia ITE.
Referral programme	19-20	Invite another comunidad = 3 months free.
AI copilot	23-24	'Can the comunidad charge me for this?' Cites LPH articles.

Phase 3 milestone: 200 comunidades. EUR 700+ MRR. Product-market fit.

Phase 4: Expansion (months 7-12+)

Initiative	Details
Portugal (condominios)	Similar legal framework (LPC). Translate UI, adapt templates.
LatAm (propiedad horizontal)	Colombia, Argentina, Chile. Same concept, different regulations.
Energy management	Certificado energetico, solar panels, EV charger allocation.
Smart building	IoT: water meters, energy monitors, smart locks.
Insurance marketplace	Compare seguros de comunidad. Affiliate revenue.
Online cuota payment	Vecinos pay cuotas via Stripe. Auto-reconciliation.

Pricing tiers

Tier	Price	Units	Key features
Gratis	EUR 0/mo	<= 10	Announcements, incidencias, docs (1 GB), basic convocatoria
Comunidad	EUR 9/mo	<= 50	+ Cuota tracking, reminders, voting, acta generation, 10 GB
Com. Pro	EUR 19/mo	<= 200	+ Proveedor marketplace, booking, analytics, custom branding
Admin	EUR 99/mo	Unlimited	Multi-comunidad dashboard, tax reporting, API, white-label

EUR 9/month split across 20 vecinos = EUR 0.45 each. The administrador costs EUR 100-300/month.

Revenue projections (conservative)

Month	Free	Comunidad	Pro	Admin	MRR
3	30	0	0	0	**EUR 0**
6	60	5	0	0	**EUR 45**
9	100	15	3	1	**EUR 291**
12	150	30	8	3	**EUR 719**
18	250	60	20	8	**EUR 1,712**
24	400	100	40	15	**EUR 3,145**

Go / no-go checklist

Criterion	Status
5+ presidentes say they would use a free tool	
2+ presidentes say they would pay EUR 9/month	
WhatsApp Business API cost confirmed (< EUR 0.05/msg)	
Lawyer confirms digital convocatoria validity under LPH	
Domain secured	
Downloaded competitors, confirmed they are painful	

Product plan generated 3 June 2026. Following the Lexit/Mensajeras playbook.
