Vecinos

Invitation + transfer flows

Invitation flow

How vecinos join the comunidad. Three channels, WhatsApp-first.

Method	How it works	Best for
WhatsApp link	Presidente taps 'Invite'. Gets a unique link. Shares to the grupo or individually. Vecino taps, signs up with phone, auto-joins.	Most vecinos. Zero friction. Primary channel.
QR code poster	Generate a printable QR poster: 'Escanea para unirte'. Stick in the portal next to the buzones.	Vecinos not in the WhatsApp group (older residents, renters).
SMS / email	Presidente enters phone numbers or emails. System sends join link with delivery tracking.	Targeted invites. Track who opened.
Import list	Paste or upload a CSV of unit + name + phone from the acta or admin records. Bulk invite in one go.	Large comunidades (30+ units). Administradores.

Invite vecinos (presidente)

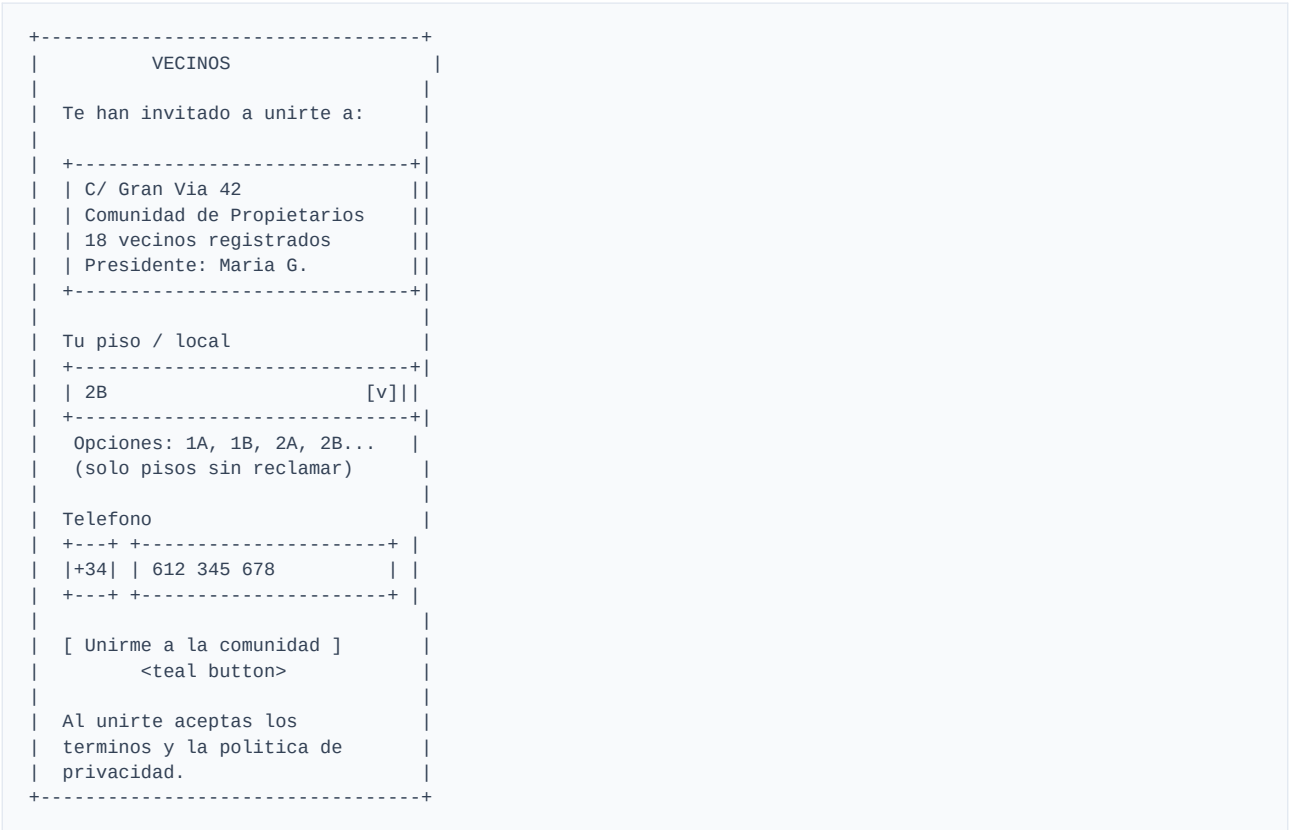
Three-tap invitation. Pre-register units for a clean onboarding.

QR poster (printable)

Generated A4 poster for the building portal.

Vecino joins via link

What the vecino sees when they tap the invitation link.



Transfer of presidente role

Annual rotation per LPH. Must be frictionless — the new presidente shouldn't need a manual.

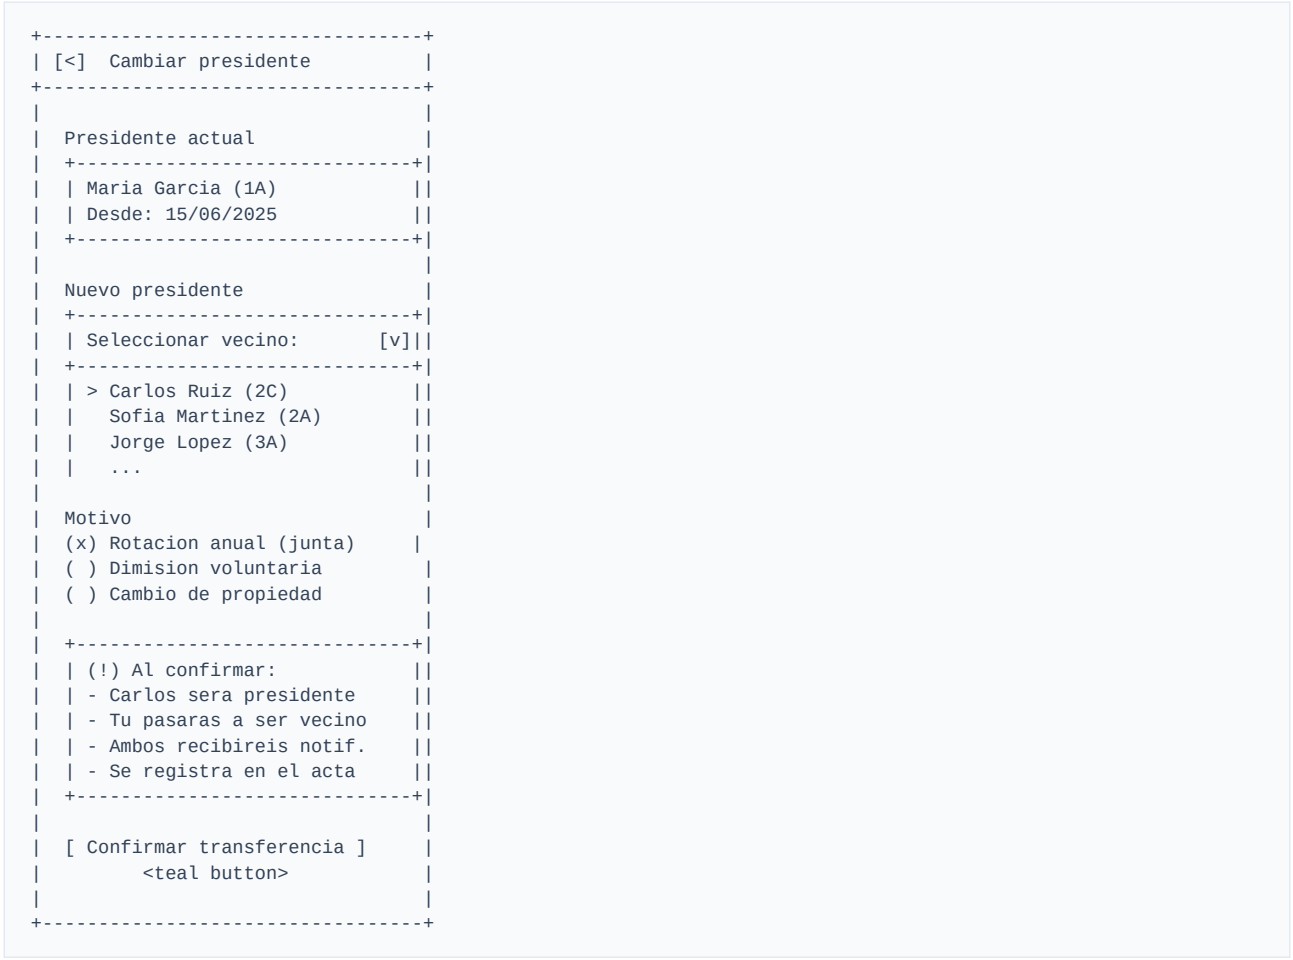
Scenario	Trigger	What happens
Orderly handover	Junta votes new presidente	Current presidente selects replacement from vecino list. Immediate role swap. Both notified. Logged in acta.
Presidente sells flat	Owner leaves comunidad	System blocks departure until role is transferred. Options: transfer to vicepresidente, pick any vecino, or request election.
Presidente resigns	Voluntary mid-term	Same as scenario B. Must transfer before resigning. Vicepresidente auto-assumes if available.
Admin-managed	Professional administrador	Administrador reassigns from their dashboard. Both vecinos notified. No junta required (admin authority).

What transfers with the role

Transfers to new presidente	Stays with old presidente
Admin access to all features	Personal vote history
Announcement creation	Notification preferences
Cuota management + reminders	Cuota payment records (tied to unit)
Junta convocatoria + voting control	Documents they uploaded (stay in comunidad)
Incidencia assignment	Incidencias they reported (stay open)
Vecino approval/removal	Their vecino account (becomes regular member)

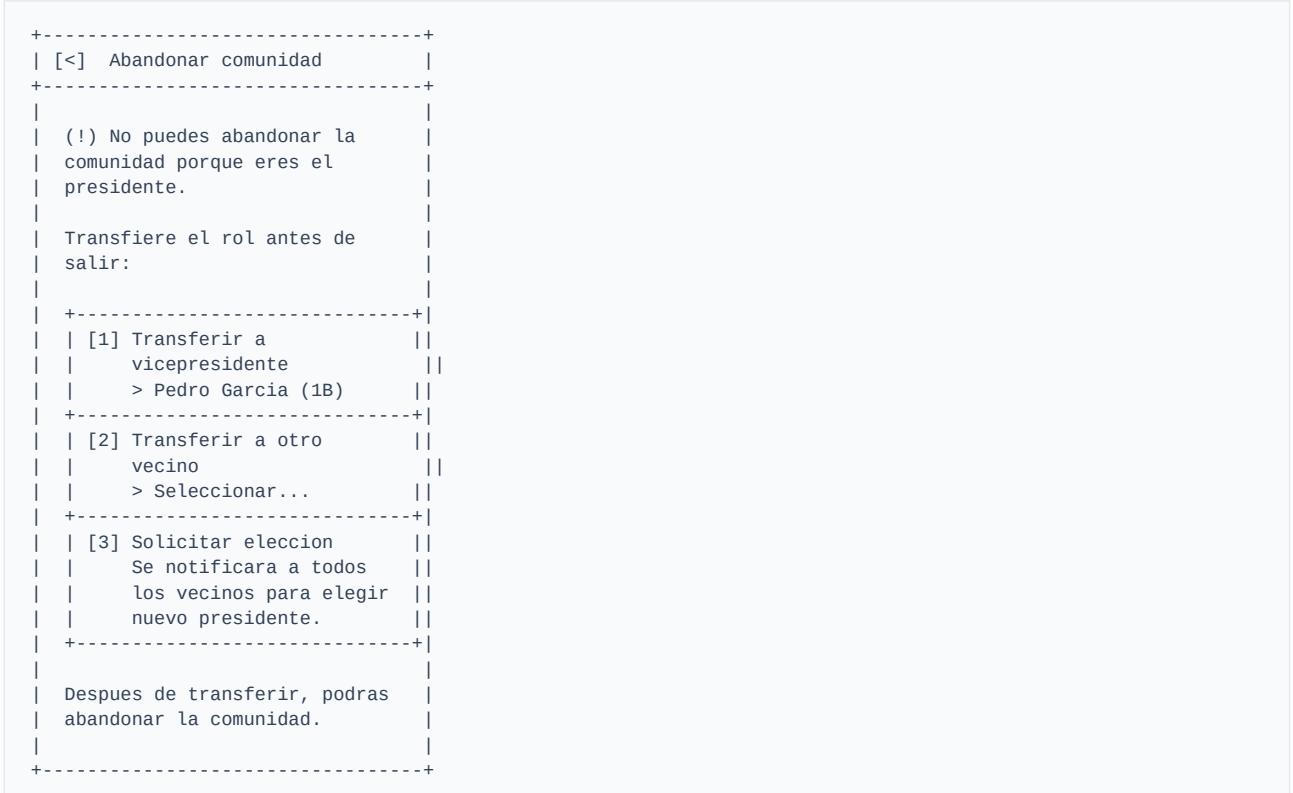
Transfer presidente (orderly)

Current presidente hands over after junta vote.



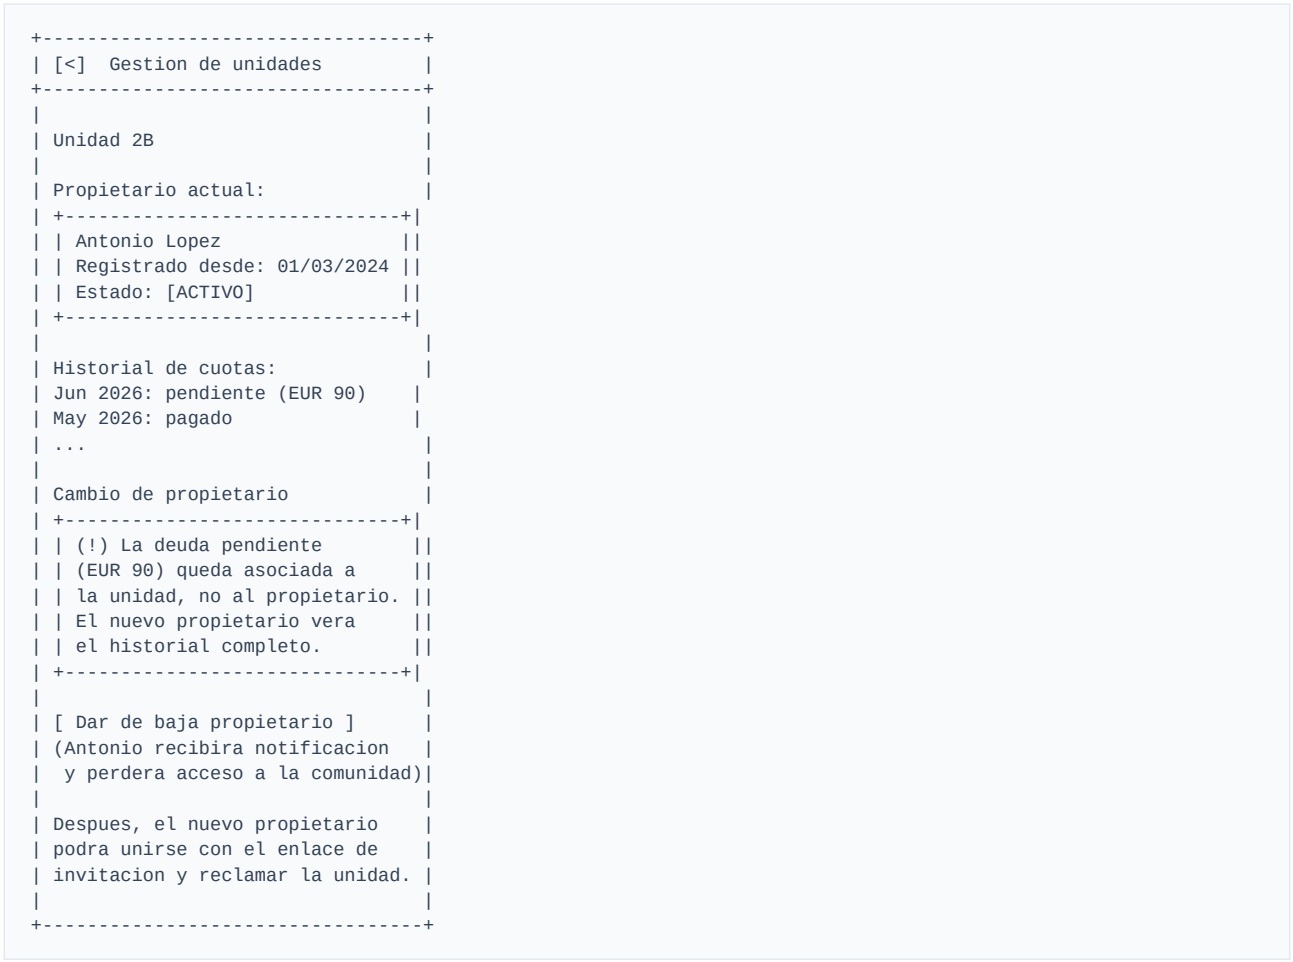
Presidente leaving (blocked)

System prevents departure until role is transferred.



New owner joins unit

When a flat is sold, the new owner claims the unit.



Updated MVP feature list

Invitation + transfer features added to the sprint plan.

Feature	Priority	Sprint	Notes
Phone OTP auth	P0	1	Same as Mensajeras
Comunidad registration	P0	1	Address, units, coeficientes
WhatsApp invitation links	P0	1	Unique link per comunidad
Per-unit invitation	P0	1	Pre-register units, personalised links
QR code poster generator	P1	2	Printable A4 for the portal
SMS/email bulk invite	P1	2	Enter phone numbers, track delivery
CSV import	P2	4	Paste from acta or admin records
Vecino approval toggle	P1	2	Open vs manual approval
PWA shell + bottom nav	P0	1	Installable, works offline
Announcements + WhatsApp	P0	3	Post + notify all vecinos
Incidencia reporting	P0	3	Photo + status tracking
Document storage	P0	4	PDFs organised by type/year
Junta convocatoria	P1	5	LPH 15-day minimum enforced
RSVP + quorum	P1	5	Attendance + coeficiente calc
Acta template	P1	6	Generate PDF from junta data
Transfer presidente role	P0	2	Select replacement, immediate swap
Block departure without transfer	P0	2	System enforces handover
Unit ownership change	P1	4	Old owner leaves, new owner claims unit
Notification preferences	P1	3	WhatsApp / SMS / email / in-app

Invitation + transfer flows added 3 June 2026.
